

Texas SmartScape™

The City of Sherman has joined other North Texas cities in promoting Texas SmartScape™ yard care. Texas SmartScape™ is an award-winning program developed by the North Central Texas Council of Governments. The interactive guide provides steps to grow a lush and colorful landscape that thrives in North Texas' climate extremes.

Texas SmartScape™ can also be accessed online at www.txsmartscape.com. The site includes photos of over 200 plants, trees and shrubs in the interactive database. Whether you're designing a garden for your new home or just adding a few new plants to your yard. SmartScaping can help. The North Central Texas climate accommodates a myriad of plants to create a variety of landscape styles, from a lush cottage garden to a rolling grassy prairie to a verdant woodland haven. Using the Texas SmartScape™ plant palette will not only create a garden to match a person's taste, it will also create a Texas garden that survives the rains of spring, droughts of summer, and cold snaps of winter, while also providing a home for native birds and butterflies. Get Texas SmartScape™ today and enjoy your landscape!

Look for SmartScape plants and CDs at these area partners:

- Gardenland Nursery, 810 Frisco Road, Sherman
- Twin Oaks Nursery, 2107 Hwy 691, Denison
